

## **EcoDriveCN vector control AC VSD drives (frequency inverters, VFD) for waste water treatment for energy saving**

In modern society, domestic and commercial sewage treatment plants are common.

Vector control frequency inverters (variable speed drives, variable frequency drives) from our company are widely used for waste water treatment (sewage disposal, sewage treatment, sewage sludge treatment) for municipal engineering.

One main benefit of using inverter drives in this field is energy saving.

The VFD drives from **Shenzhen V&T Technologies Co., Ltd.** reduce energy and maintenance costs with quick payback at wastewater treatment facility.

Vertical screw centrifugal pumps in sewage processing.

Some valuable advantages:

**Failure rate < 1%**, similar as Emerson Control Techniques, ABB, Danfoss, Eaton, Mitsubishi, Schneider, Allen Bradley, Lenze, Yaskawa

[Authorized CE certificate, issued by ECMG](#)

**18-month** warranty period

Delivery lead time: 1-4 days

[Supply to REGAL, Ingersoll Rand, Foxconn, BYD, L.K. Group, CG Group...](#)

[V&T Technologies Co., Ltd.](#)

**Add:** XinFeng Building, YangGuang Industrial Area, XiLi Town, NanShan District, ShenZhen, 518055 China

**V&T Technologies Co., Ltd.** is professional in manufacturing [superior quality variable speed drives \(frequency inverters\), servo drives, motor soft starters, and other power electronics.](#)

The **variable speed drives (frequency inverters)** are used for energy saving and process control, in plastic injection molding machine, machine tools, air compressor, water supply, civil engineering, conveyor belt, sewage disposal (wastewater treatment), extruder machines, extruder, fan and pump, HVAC, food and beverage industry, mining industry...

Professional manufacturer of frequency inverter (variable speed drive, variable frequency drive, VSD,VFD), servo, motor soft starter...

As the leading factory in China, we are competing with Siemens, ABB, Schneider, Danfoss.

Available drives for you: from 200 VAC to 1140 VAC, from 0.4KW to 3MW.

We promise to bring you the [best AC drives in China](#) to you, customize for you, offer the valuable solutions and advice to you.

By the way, we are **the recognized leader** of [energy efficiency retrofits of air compressors, injection molding machines and other machines](#) in the world.
